Summary

- *Full-Stack Software Engineer looking for full-time remote work. Studied Web Development with a strong background in mathematics and data analysis*
- *View [my portfolio](#).*

Education

Devmountain

Full-Stack Web Development • Lehi, UT   12/2022

Studied in an intensive 16-week environment, gaining skills in Javascript, HTML and CSS, SQL, NodeJS, and ReactJS.

The following link will take you to my [Foundations Capstone Project](#) which was completed in the first 8 weeks of study.

Brigham Young University

Applied Computational Mathematics • Provo, UT

Studied from 2017-2019, 2021-2022 with an emphasis in Computer Science and a minor in Business Management. Consistently awarded academic scholarships. Served as Vice President of Honors Student Leadership Council, 2021-2022.

Experience

BYU Pathway Worldwide

Data Analyst • Salt Lake City, UT   04/2021 - 08/2022

Worked independently to compile, clean, visualiz, and present data relating to students, coursework, and employment status in PowerBI. Modeled trends via logistic regression analysis in R.

BYU Independent Study

Quality Control Team Lead • Provo, UT   01/2021 - 04/2021

Trained, mentored, evaluated, and worked alongside 10 quality control staff members and assisted in hiring new personnel. Handled tickets in CRM and made edits in HTML and CSS. Created and generated reports on effectivity and time management for the team.

BYU Independent Study

Production Process Assistant • Provo, UT   07/2017 - 05/2019

Handled basic data analysis in Microsoft Excel to support course production happening on time and under budget. Worked independently to solve problems and develop solutions before organizing, prioritizing, and communicating information to superiors.

Skills

Communication skills, Javascript, Html5, CSS

Certificates

Web Development Certification
